1 Quick Start Guide
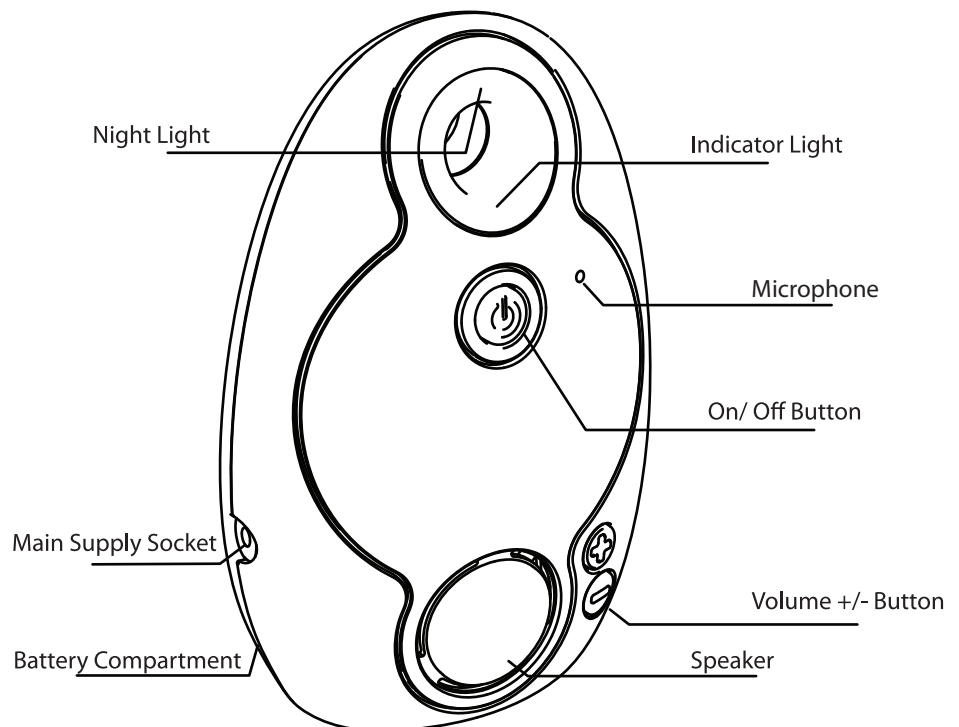

! SAFETY INSTRUCTION

Warning

- Improper or incorrect use of batteries may cause corrosion or battery leakage, which could cause personal injury or damage to property.

- Install the batteries correctly by following the polarity (+ and -) indications in the battery compartment.

- Use only the types of the batteries which are indicated in this manual.

- Do not install new batteries with used ones and do not mix different types of batteries.

- Do not dispose the used batteries as domestic waste. Dispose them in accordance with local regulations

- When not use the equipment, please unplug the power supply.

- Make sure that the electrical appliance and their wires are kept out of children.

- Do not leave any packaging materials (plastic bags, cardboard boxes, etc.) within the reach of children as these can be hazardous.

- Only use the AC/DC mains adapters supplied with the product. Use of other adapters could damage the unit and cause danger to the user.

- Make sure the compartment is firmly shut to prevent children from swallowing the batteries

1 | OVERVIEW

IMPORTANT NOTE
It is very important that you read the User Guide carefully as it contains detailed information. Please refer to the complete user manual which is available online at:

2 | APP

Install the "BabyMon" APP on your Android Device, which can be found by scanning the QR code below.

NOTE: the "BabyMon" APP supports only Android Device with Android 4.4.2 or above
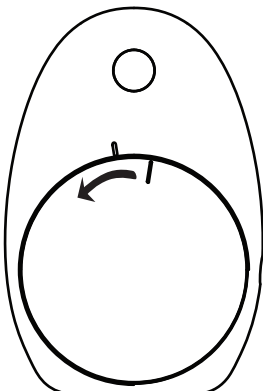

3 | SETTING UP BOLLA

Turning on BOLLA

The BOLLA baby monitor runs on either 2 AAA batteries or with a main supply adapter.

Use with batteries: open the battery compartment by turning the cover counterclockwise, insert the 2 AAA batteries, observing the correct polarity, then firmly close the compartment.

Use with supplied adaptor: Plug the power adaptor cable into the main supply socket on the BOLLA unit and plug the other end into the mains power.

The indicator light will turn RED.

You are advised to charge your BOLLA 10 hours for the first time.

To turn on BOLLA, simply press the "On/ Off" Button

When not charging, the "Indicator light" LED will be blinking in BLUE.

When charging, the "Indicator light" LED will be alternating in RED and PURPLE.

Smartphone

Open the Bluetooth setting menu on your smartphone and turn on the Bluetooth function.
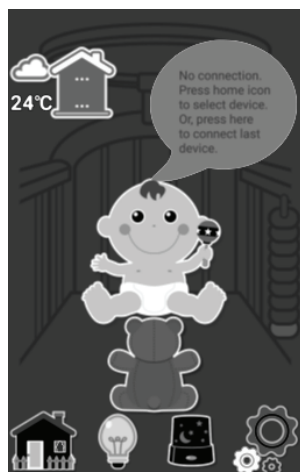

Search for the Bluetooth devices and select the "Bolla" and let the Android system pair with it.

After successfully complete the pairing and connecting process, the "Indicator light" LED will stop blinking and become steady on.

When not charging, the "Indicator light" LED will be in BLUE.

When charging, the "Indicator light" LED will be in PURPLE.
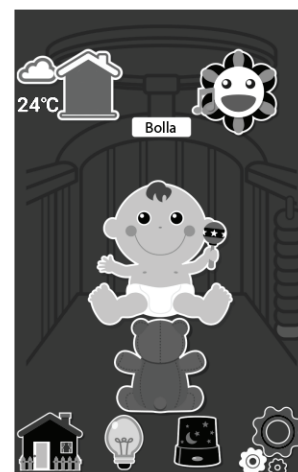

4 | CONNECTING YOUR BOLLA

Tap on the "Home" icon on the lower left corner to enter the add device interface.

Or you can tap on the pop-up on upper right corner of the Main Menu to connect to last connected device if there is device connected before.

And tap on the "add" icon to get the paired device list. The "Bolla" device will be displayed, tap on it to assign the name and then select an icon to represent it.

To connect a device, tap on assigned icon and tap ok. "Bolla" will be shown above the baby in APP

The BOLLA is ready to use now.

(If the Bluetooth function of smartphone is not activated, the APP will request to enable the Bluetooth.

Please select "YES" to activate the Bluetooth on Smartphone first.)

5 | USING YOUR BOLLA

Adjust the Crying Level
The "BabyMonitor" APP has eight crying alert levels, and it is represented by beads on the right hand side of the Main Menu.

The selected bead will be highlighted. You can tap on a bead to set the crying level. Once the crying/sound level at the BOLLA side reaches this level, the sound will be transmitted to the smartphone/APP.

If you select a higher bead, the sound on BOLLA side needs to be louder to activate the sound transmission.

Adjust the Loudspeaker Volume
There are 5 volume levels

To change volume of Talk back/ playing selected song, press "Volume +/-" buttons on BOLLA to adjust the volume.

To change volume of playing music from your smartphone, press "Volume +/-" buttons on your phone to adjust the volume.

(While the Bolla is not in Talk Back mode or playing music, if you try and set the volume higher or lower than the 5 settings available on the unit, you will hear an error tone.)

Talk Back
You can activate the Talk back function by tapping and holding the little bear in the Main Menu.

The Talk Back will be continued until you release the bear. Talk to the smartphone and your baby can hear your voice.

Please note that when using Talk Back you will not be able to hear your baby until the talk back ends.

Nightlight
You can set a comforting nightlight on the BOLLA.

Tap on the Nightlight icon in the APP Main Menu, the Nightlight on the unit will be switched on/off

Play Lullaby
The BOLLA unit has lullabies that can be played to gently soothe your baby. Also, you can choose songs/storys from your smartphone to play.

By default, the unit will play 3 lullaby repeatedly. Tap the handle icon in the APP Main Menu, the BOLLA will start to play the lullabies.

Play Music/ Story
To play the song or story from the smart phone, press the flower icon; the APP will jump to browse your music directory.

Search and select your song/ story by tapping on it, and then the unit will start to play the song/story.
